Resignation of the Research Affairs Secretary: 21

Post-resignation Procedure: 21

STATEMENT OF EXPENDITURE 21

ANNEXURES **22**

History of Edits 22

Roles and Responsibilities:

The Research Affairs Secretary shall:

A. Represent the views of the students from research programs on matters related to academicresearch to the Board of Academic Research and the Senate. These include, but are not limited to the research programme, the curriculum, teacher, guide and course feedback, and postgraduate research;

B. Coordinate between the Executives at the department level regarding issues which concern more than one department;

C. Coordinate the functioning of all the centralized facilities of academic nature, such as the Library, the P. G. Senapathy Computer Centre, the Placement Office etc. along with the Academic Affairs Secretary in a manner that addresses the needs of the General Student Body. The Research Affairs Secretary, along with the Academic Affairs Secretary, shall be responsible for the smooth functioning of these facilities including, but not restricted to, the number, variety and quality of books and journals available to the General Student Body;

D. Be an ex-officio member of any committee which may be set up by the Administration for matters related to the affairs of academic research of the students;

E. Be a member of the Academic Disciplinary Committee and regularly update the Student Legislative Council and the General Student Body regarding the decisions taken by the Committee;

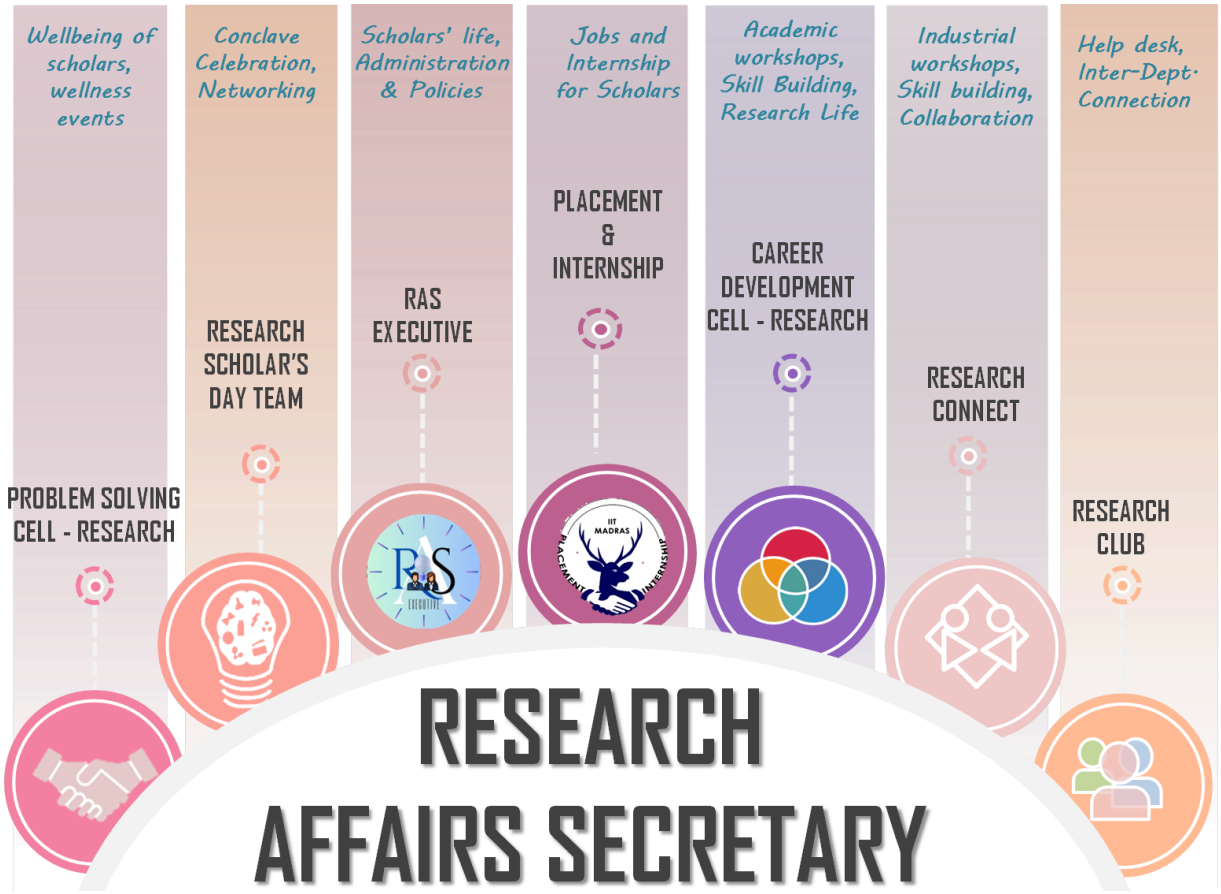

F. Be a member of the Ethics Committee and regularly update the Student Legislative Council and the General Student Body regarding the decisions taken by the Committee for issues regarding unethical publishing/plagiarism etc.

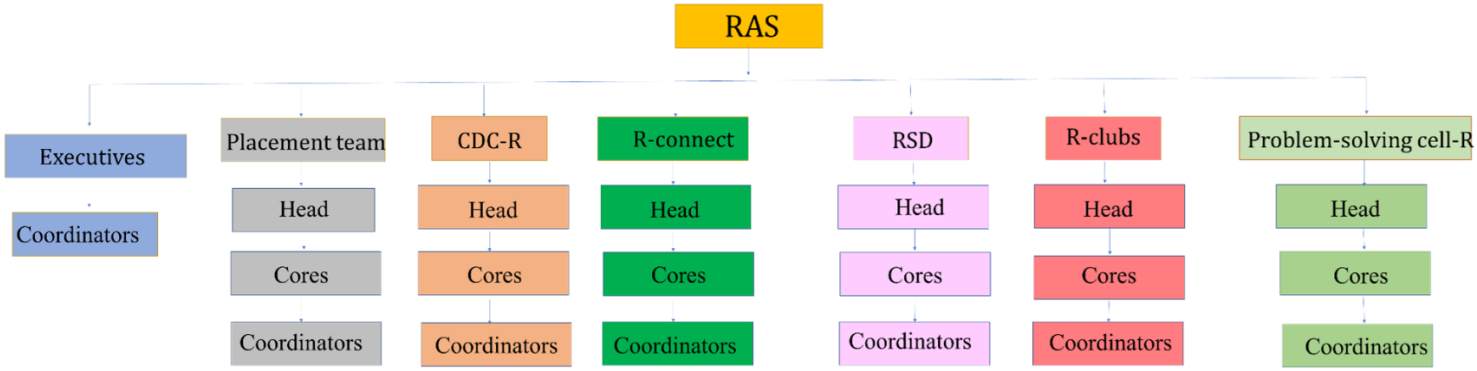

G. Coordinate with the International and Alumni Relations Secretary on promoting research collaborations between IIT Madras and other premier Institutes/Universities in India and around the world;

H. Be conversant with all the rules of academic research of the Institute.

Research Affairs Secretary – Teams:

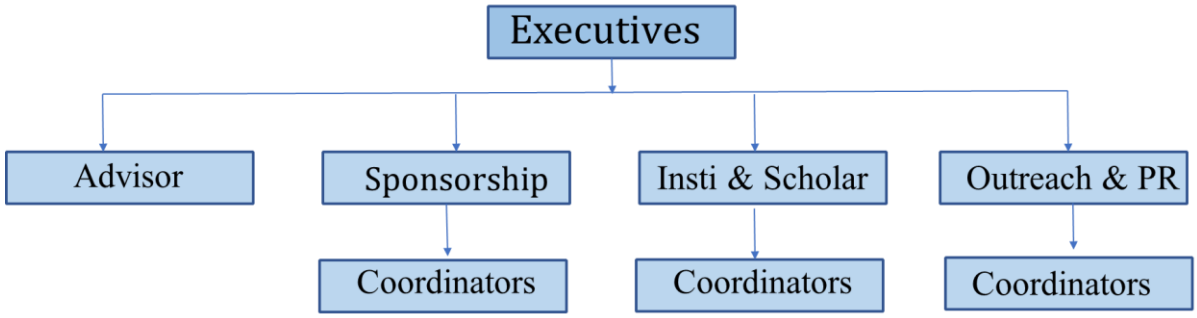

Below is an overview of the structure of teams which come under the aegis of the Research Affairs Secretary.

1. Research Affairs Secretary (RAS) Executive Team:

This team shall comprise of minimum 1 and a maximum of 5 members selected from the electorate to help the RAS to implement new initiatives and ideas and in general assist him/her with the execution of the tasks under his/her purview. The outgoing or an ex-RAS shall be a de-facto member of this team and shall play an advisory role.

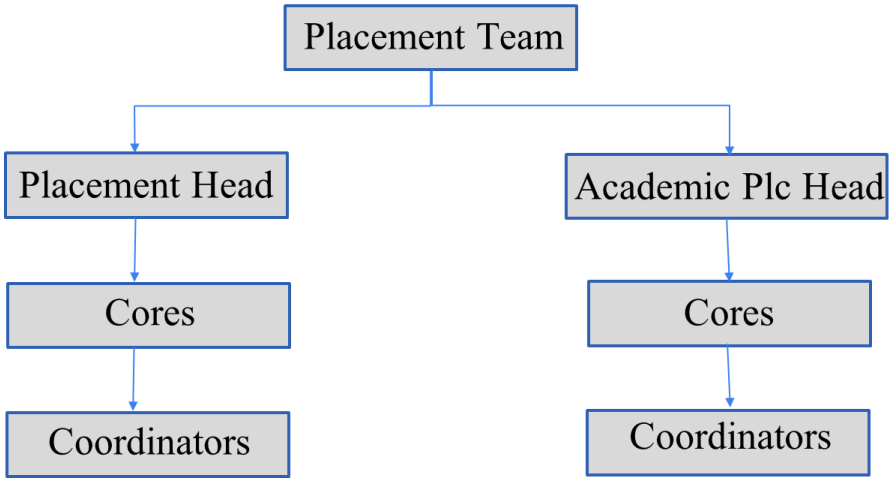

Executives Coordinators:

The Coordinators shall be selected through a written application and interview process, with the panel containing the RAS and the Executives Team. The coordinators shall be allocated based on the team's requirements removal is as other teams.

2. Placement & Internship Cell:

The Placement and Internship Cell shall facilitate industrial as well as academic opportunities via established processes such as the Institute Placement Process & Institute Internship Process and other de-centralised processes.

RAS during the 2023-2024 academic year proposed a new placement division that deals with the academics related opportunities is planned to be created under the existing placement cell. This idea arrived from the recent placement statistics indicating the scholars are equally motivated to take the academic positions like pdf positions, Faculty positions,, Teaching positions , Foreign exchange programs, and Research associate at prestigious institutes in India. The academic placement head works under the RAS and need to report to the RAS. The motive of this division is to provide the academic opportunities to the scholars. The head is responsible to identify the vacancies related to the faculty positions at various institutes and make them available to the scholars either by on-campus or off-campus means. This initiative helps scholars land in academic roles at premier institutes.

Team Structure

Placement & Internship Governing Council

The cell shall be led by the Placement and Internship Governing Council, comprising of 5 Heads of the Placement & Internship Cell. They are:

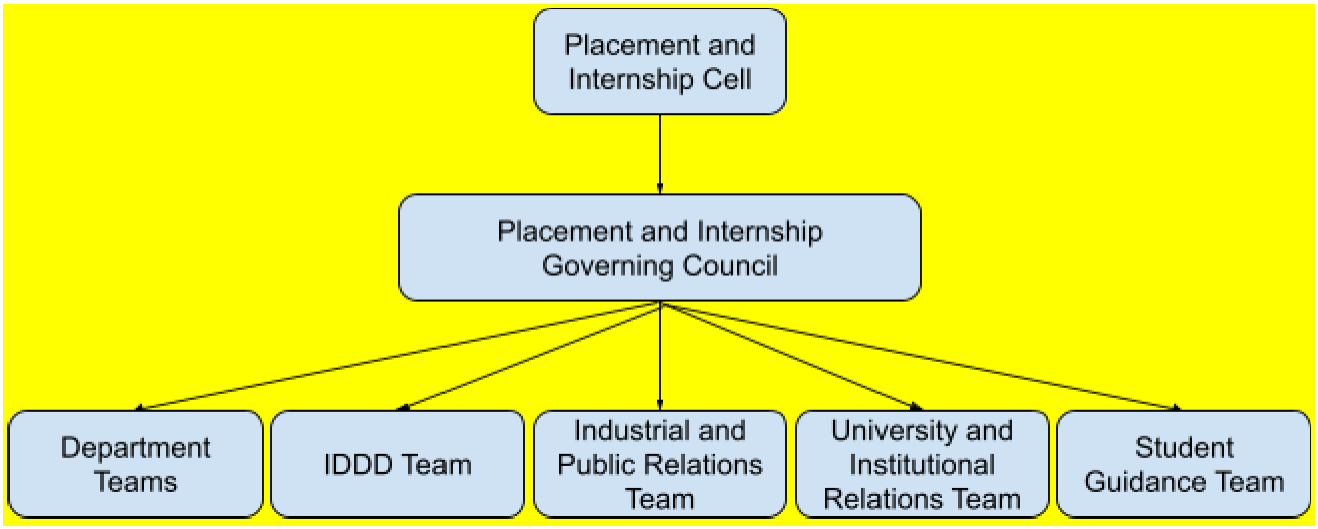

1. Academic Affairs Secretary (AAS)

2. Research Affairs Secretary (RAS)

3. Placement Head (B. Tech, Dual Degree, M.A.)

4. Two Placement Head (M. Tech, M. Sc, M.S., M.B.A., PhD)

5. Internship Head (for all taught programs)

The team under the Placement and Internship Governing Council can be broadly divided into: 1. Verticals:

These are the intra-department teams which are three-tiered

The department teams will be separate for both the UG and PG programs, with representation for all departments in the UG and PG teams.

The internship process will be jointly run by the same team for all the taught programs.

Horizontals:

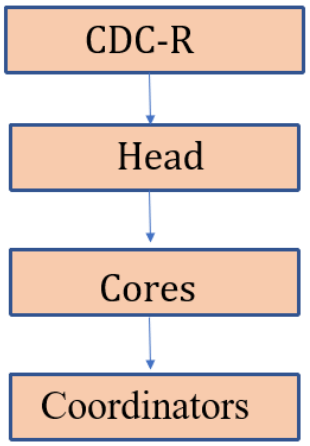

These are the inter-department teams which are two-tiered

These teams will handle all the things that aren’t under the purview of the department teams.

Further details can be found in the Rulebook for Placement & Internship Cell.

2. Career Development Cell – Research (CDC-R) Team:

The CDC-R is an umbrella team for conceptualizing, undertaking and implementing all activities focused towards the personal and professional development of the scholars of the Institute. Ithandles all activities aimed towards enriching, empowering and enhancing the information, opportunities and facilities available to a scholar on campus. This in turn helps them decide and advance in their desired career choice with the right set of tools and outlook. The set of activities which can be taken up by CDC-R includes, but not limited to:

1. **Events**
2. **Workshops**
3. **Entrepreneurship**
4. **Mentorship**
5. **Placement prep**

- Placement Preparation
- Scholars Career Sessions
- Mentorship with Industries
- Entrepreneurship Workshops
- Skills Enhancement Workshops
- Scholars Website (scholars.iitm.ac.in)
- Any and all initiatives aimed at improving the career prospects of the scholars

Head - CDC-R:

The CDC-R Head directly reports to the Research Affairs Secretary, and is appointed through a written application and an interview process. The interview panel shall contain the outgoing CDC-R Head and Research Affairs Secretary, the incoming Research Affairs Secretary and approved by the Advisor (CDC-R) . In case the position is unfilled (no applicant or all applicants are rejected by the panel), the Research Affairs Secretary shall occupy this position by default.

CDC-R Core team:

The CDC-R team shall have the following teams and the number of cores per team are presented next to them. Each of the cores shall have team members working with them for implementing their activities. All the selections are based on written application and interview, and done in consultation with Advisor (CDC-R).

#	Team Name	# of Cores	Description of the Team
1	Placement Prep	1	Conduct placement related sessions such as mock interviews, blue book preparation, alumni lecture etc.

2	Events & Workshops	2	Conduct awareness sessions such as JDP/JSP Opportunities, Patenting Sessions, Post Doc Awareness etc. Focus on workshops and skill building (both technical and soft skills) such as Academic Writing, Analytics, LaTeX and department specific skills.
3	Entrepreneurship & Mentoring	2	Encourage scholars to pursue entrepreneurship and make them aware about the available facilities and opportunities on campus. They will also find mentors for the scholars in the industry and alumni to help them understand their sector better before sitting for placements.
Total # of Cores		5	

CDC-R Coordinators:

Each Core Member shall select coordinators, in consultation with the RAS and Head-CDC-R Team. The coordinators shall be allocated based on the team requirements. The selection process is through a written application and an interview. The interview panel shall contain the Head CDC-R Team and at-least two cores.

3. Research Scholars Day (RSD) Team:

The Research Scholars Day (RSD) team shall be responsible for conducting the annual research festival of IIT Madras, **Research Scholars Day**. The RSD would be the flagship festival of the Institute to celebrate the spirit of Research on the Campus and provide opportunities for the scholars to showcase their talents and interact with the distinguished industry and academic personalities including the alumni as well.

The RSD Team shall be constituted for conducting this festival and other Scholar interaction events, and the CDC-R team and all other teams shall assist them with all possible help they would be needed. A few verticals shall be specific to the RSD team and recruitment shall be done for them separately at the appropriate time. Each of the verticalswould be headed by 1 or 2 Cores and they shall have coordinators assisting them in executing the activities.

Head - RSD:

The RSD Head directly reports to the Research Affairs Secretary, and is appointed through a written application and an interview process. The interview panel shall contain the outgoing RSD Head and Research Affairs Secretary, the incoming Research Affairs Secretary and approved by the Dean of Academic Research. In case the position is unfilled (no applicant or all applicants are rejected by the panel), the Research Affairs Secretary shall occupy this position by default.

RSD Core Team:

The Core Team Members are selected through a written application, followed by an interview. The interview panel shall consist of Research Affairs Secretary, Head-RSD and the outgoing head and core members.

The RSD Team shall be divided into the following verticals, each headed by Core Members. Some of the teams shall consist of the existing CDC-R teams. The complete list of teams is given.

Duties and Responsibilities:

- **Events Team**

The Events Team shall be responsible for all events during and before RSD. The event team plays a vital role in planning, coordinating, and flawlessly executing a wide range of events. Their responsibilities encompass types of event such as cultural events, lecture series, competitions, and ensuring effective communication and collaboration with speakers. Event team shall consist of a maximum of one core and five coordinators.

- **Career Fair and Alumni relation**

This team shall be responsible for reaching out to the alumni to involve them in the festival in various ways. The team shall work with the Events & Operations team, the Alumni Relations Cell(ARC) and other stakeholders to increase the engagement of the alumni during the festival. It shall have 1 core and

maximum of 5 coordinators.

- **Sponsorship and Finance**

The sponsorship & aegis team proactively seeks out potential sponsors and establishes meaningful partnerships. They actively engage with companies and organizations, presenting compelling sponsorship opportunities and demonstrating the value and benefits of supporting RSD events. This team shall be responsible for procuring and managing RSD Merchandise. This team is also responsible for maintaining the finances for the festival. They shall help allocate budget and handle the online merchandise sales, event expenses, logistic costs, manage vendors and maintain a record. They shall handle the administration with any queries regarding finances and reimbursements for the expenses. This team shall have a maximum of two cores and six coordinators.

- **Logistics & Support Team**

The Logistics & Support Team shall be responsible for the smooth conduct of RSD by making necessary arrangements such as venue selection, accommodation & transportation management, staff & volunteer management, equipment & supply management, Hospitality of Guests etc. This team shall have one core and five coordinators.

- **Visual Communication Team**

This team shall be responsible for creation of multimedia content related to RSD like Logo, banner, brochure, website and social media design (creation and maintanance), and shall also be responsible for all decorations (ambience) at the venues of RSD. This team will have maximum of one core and 5 coordinators.

- **Outreach and promotion Team**

This team shall be responsible for marketing, promotion, and media outreach across various platforms including Facebook, Instagram, and LinkedIn. They employ strategic tactics to create awareness about the various RSD events. This team is also expected to Gather feedback, analyse .the success of the event and create a report. This team shall comprise of maximum of one core and 5 coordinators.

Selection Procedure

The Core Members are selected through a written application and interview process. The panel of interviewers shall contain the RAS, Head and the Cores from the previous year. This panel recommends names for selection, and their selections are confirmed after taking approval from the Dean (Academic Research).

The Coordinators shall be selected through a written application and interview process, with the panel

containing the Head, and the Core Members of the Team.

Removal Procedure

Underperforming cores shall be removed in consultation with the Dean (Academic Research). Cores shall be also removed if they are found guilty by any disciplinary committee, as the RSD team demands the highest professional integrity and ethics.

Coordinators shall be removed, if they underperform, but only after a thorough performance review by the cores and RAS on their performance in the team. They also shall be removed if they are found guilty by any disciplinary committee.

Removal of any member from the team must be documented in the form of a report and shall be made available, on demand, to the Dean(AR) and/or SLC. The RAS shall maintain the reports for core members, and the respective cores for the coordinators.

Official Online Presence of RSD:

Website: www.rsdiitmadras.com

4. Research Connect (R-Connect) Team:

Research Connect is an initiative started in the year 2016 for improving Industry-Academia Interactions and Collaborations. A typical R-Connect Event is composed of a visit by industrial R&D to research labs at IIT Madras working in a similar area of research and interaction with students and faculty. It is aimed at bringing about potential research collaborations, job/internship opportunities, sponsored MS/PhD Programs etc.

Head - RConnect:

The RConnect Head directly reports to the Research Affairs Secretary, and is appointed through a written application and an interview process. The interview panel shall contain the outgoing RConnect Head and Research Affairs Secretary, the incoming Research Affairs Secretary and approvedby the Advisor (RConnect) . In case the position is unfilled (no applicant or all applicants are rejected by the panel), the Research Affairs Secretary shall occupy this position by default.

1. **Industry Connect**
2. **Alumni Connect**
3. **Research event Connect**
4. **International Connect**
5. **Research Magazines**

Duties and Responsibilities:

The members of the team shall coordinate with other institute bodies/organizations like I&AR Office, Centre for IC&SR, Placement Team etc. to establish contact with industrial R&D Labs and co-ordinate their visit to the Institute Research Labs. The Team shall consist of a RConnect Head, a maximum of 5 Cores and 5 Coordinators each.

#	Team Name	# of Cores	Description of the Team
1	**Alumni Connect**	1	Helps to connect and organize meets with Alumni of IIT Madras, to know their experience and current work cultures of Industries.
2	**Industry Connect**	1	Helps to connect the R&D work going on the industries, with the research work happening in the IIT Madras labs.
3	**Research Magazine**	1	Helps to gather and publish record of all the research work, events, achievements done by the scholars in IIT Madras
4	**Research Event Connect**	1	Helps to organize research exhibitions that will feature industry peoples and scholars under common roof, to showcase their research work
5	**Foreign Connect**	1	Helps to establish connections between foreign industries and the research work happening in the IIT Madras labs.

Selection Procedure

The Core Members are selected through a written application and interview process. The panel of interviewers shall contain the RAS, Head and the Head & Cores from the previous year. This panel recommends names for selection, and their selections are confirmed after taking approval from the Dean (Academic Research).

The Coordinators shall be selected through a written application and interview process, with the panel containing the Head and the Core Members of the Team.

Removal Procedure

Underperforming cores shall be removed in consultation with the Dean (Academic Research). Cores shall be also removed if they are found guilty by any disciplinary committee, as the Research Connect team demands the highest professional integrity and ethics.

Coordinators shall be removed, if they underperform, but only after a thorough performance review by the cores and RAS on their performance in the team. They also shall be removed if they are found guilty by any disciplinary committee.

Removal of any member from the team must be documented in the form of a report and shall be made available, on demand, to the Dean(AR) and/or SLC. The RAS shall maintain the reports for core members, and the respective cores for the coordinators and super coordinators.

Panel of Mentors

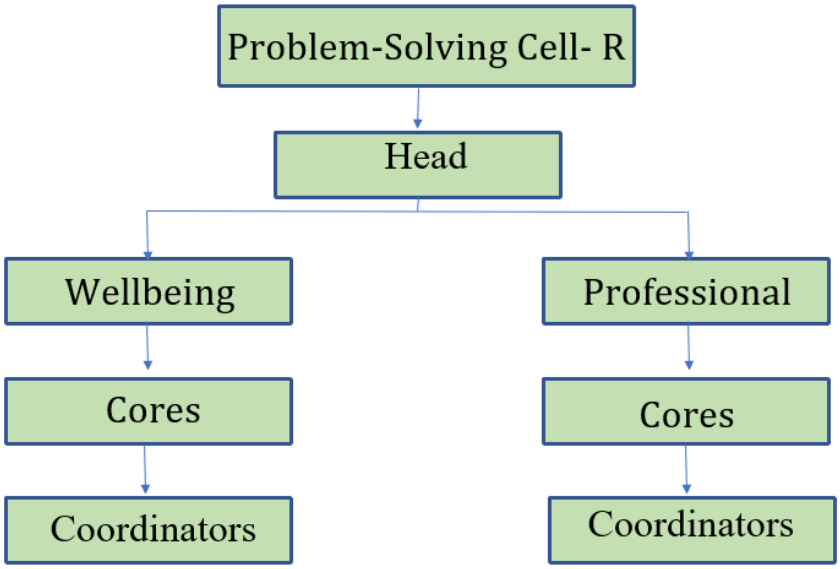

Research Connect, requires a certain continuity across the years, as the goals are long-term in nature. Hence, a panel of mentors, consisting of interested previous cores/Research Affairs Secretaries, may be formed, to act in an advisory capacity to the team. This panel may have a tenure of six months from the date of formation. The panel should be approved by Dean (AR).

6. Problem-Solving Cell – Research:

Under the RAS, the problem-solving cell is a body responsible for solving problems faced by scholars at an institute and residential level. With an idea to help scholars solve their issues, a new Problem-solving cell has been proposed by the RAS during the 2023-2024 academic year. The motivation to help scholars has arrived from the recent unfortunate events happened inside the campus. The prime motive of this unit is to identify the common problems faced by scholars through surveys and arrive at the solutions to resolve the issues. The head of the problem-solving cell should directly report to the RAS. The problem-solving cell deals with all kinds of issues faced by scholars such as work-place harassment, academic/administration related issues, guide-student relationships, mental health etc. Scholars facing mental health issues can approach the head of the problem-solving cell. With the help of wellness centre and MiTr, Sathi the student will be given a proper counselling in order to prevent the scholar taking any sensitive actions. During the entire process, the identity of the scholar will be protected and anonymity is maintained. The structure of the problem-solving cell is created with 4 cores responsible in carrying out various activities with the help of the coordinators. The cores will have regular meetings with the head to discuss the progress and jointly come up with common ideas to resolve the scholar's issues. Important decisions that can have a potential impact on the administrative activities should be discussed with the RAS and the RAS need to make a final decision preserving the common interests of the scholars

Head - Problem-Solving Cell – Research:

The Problem solving cell - Research Head directly reports to the Research Affairs Secretary, and is appointed through a written application and an interview process. The interview panel shall contain the outgoing past PSC-R Head and Research Affairs Secretary, the incoming Research Affairs Secretary and approvedby the Advisor (PSC-R) . In case the position is unfilled (no applicant or all applicants are rejected by the panel), the Research Affairs Secretary shall occupy this position by default.

1. **Personal problems**
2. **Professional problems**
3. **Wellness**
4. **Wellness events & Helping hands**

Duties and Responsibilities:

The members of the team shall coordinate with other institute bodies/organizations like Wellness center, Mitr ,Sathi etc.The Team shall consist of a Problem-Solving Cell Head, a maximum of 4 Cores and 5 Coordinators each.

- ***Personal Problems***

These vertical deals all kinds of activities that result in the harassment of scholars at the workplace. The activities could be sexual, mental pressure, character assassination, humiliation etc. that could potentially impact the mental health of the scholars. Necessary action will be taken by the team members if a harassment at workplace is reported to concern authorities. This cell takes care of all issues related to hospitality, starting with the hostels for unmarried and scholars to the quarters allocation to married scholars. This team shall comprise of maximum of one core and 5 coordinators

- ***Professional problems***

All the issues faced by the scholars due to academic and administration will be taken care of. The academic issues include courses, grades etc. and administration issues such as financial, project fundings, research resources etc. will be handled. This team shall comprise of maximum of one core and 5 coordinators

- ***Wellness***

With the help of wellness centre and MiTr, this cell helps scholars resolve the mental health related issues. We try to arrange necessary counselling sessions to the scholars, and make sure to maintain

anonymity and confidentiality in every case, and we will raise funds. This team shall comprise of maximum of one core and 5 coordinators

- ***Wellness events and helping hands:***

This vertical primarily focusses on organizing the awareness programmes to enlighten the scholars about the importance of mental health, and also promises every scholar that they could reach us even with a minute issue bothering them. This team shall comprise of maximum of one core and 5 coordinators

Selection Procedure

The Core Members are selected through a written application and interview process. The panel of interviewers shall contain the RAS, Head and the Head & Cores from the previous year. This panel recommends names for selection, and their selections are confirmed after taking approval from the Dean (Academic Research).

The coordinators shall be selected through a written application and interview process, with the panel containing the Head and the Core Members of the Team.

Removal Procedure

Underperforming cores shall be removed in consultation with the Dean (Academic Research). Cores shall be also removed if they are found guilty by any disciplinary committee, as the Research Connect team demands the highest professional integrity and ethics.

Coordinators shall be removed, if they underperform, but only after a thorough performance review by the cores and RAS on their performance in the team. They also shall be removed if they are found guilty by any disciplinary committee.

Removal of any member from the team must be documented in the form of a report and shall be made available, on demand, to the Dean(AR) and/or SLC. The RAS shall maintain the reports for core members, and the respective cores for the coordinators and super coordinators.

7. Research Clubs:

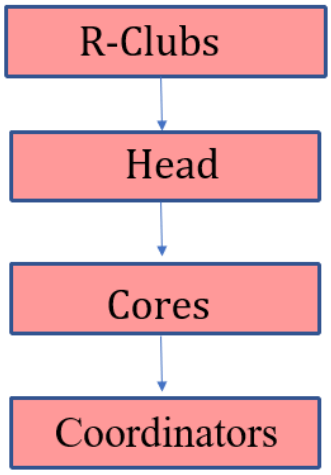

We plan to form research clubs in every department to improve the connections between the scholars. Assigning a dedicated help desk personnel for each department

With an aim to improve the research connectivity between the scholars, R-clubs has been proposed by the RAS during the 2023-2024 academic year. This team has a potential to help the scholars from

various departments to connect with the scholars working in a similar domain. For instance, one scholar working on a commercial software can easily get in touch with another scholar who has experience in using the same commercial software, this way we can improve the research progress of every scholar at IITM which would potentially impact the institute's research output. The head of R-clubs should directly report to the RAS. The R-clubs has 4 cores and each of them should have regular interactions with the head of R-clubs. The cores are responsible to perform all the ground-level tasks with the help of coordinators. The coordinators should coordinate with the department legislators to create a group containing a representative from each and every lab in the department. The representative should be responsible to provide the details of every scholar, laboratory equipment under that particular scholar or the commercial/opensource software being used by the scholar for his/her research. The details should be handed over to the respective cores and the cores will be responsible to make the details available to all the scholars at IITM. The updates during the entire process should be communicated to the head and the RAS. The important decisions should be made jointly with a proper discussion with the team head and the RAS.

Head – Research Clubs:

The Research Clubs Head directly reports to the Research Affairs Secretary, and is appointed through a written application and an interview process. The interview panel shall contain the outgoing past R-Clubs Head and Research Affairs Secretary, the incoming Research Affairs Secretary and approvedby the Advisor (R-Clubs) . In case the position is unfilled (no applicant or all applicants are rejected by the panel), the Research Affairs Secretary shall occupy this position by default.

1. **Build school sessions**
2. **Inter Dept Connections**
3. **Research facilities**

Duties and Responsibilities:

The members of the team shall coordinate with all the department's scholars with the help of Department research legislators. The Team shall consist of a R-Clubs Head, a maximum of 4 Cores and 5 Coordinators each.

Build school sessions:

The core is responsible for identify and approach the scholars with various skill sets, and conduct skill-sharing sessions with the help of the scholars. Sessions related to innovations should be conducted in order to make the scholar brain-storm together and arrive at innovate ideas that would potentially become start-up ideas. Frequent sessions should be organized in order to communicate common research related issues such as the equipment/software:

Inter-department connections:

The two cores are responsible to develop the research connections among the laboratories in a department as well as the between each and every department. The cores should perform all the ground-level activities such as obtaining the details (equipment, software, Research Vlogs etc.) of every scholars with the help of coordinators, department legislators and the laboratory representatives. The data should be made available to all the scholars through brochures/websites.

Research facilities:

The core is responsible to make all the details of the research facilities at IITM available for the scholars. Details about the common research facilities such as the Sophisticated Analytical Instruments Facility (SAIF), Central Electronics Centre (CEC), High Performance Computing Environment (HPCE) should be made available for the scholars. The core is also responsible to answer the queries related to the research facilities available on campus. The information guide that helps understanding the working, procedure to use the equipment should be made available to the scholars.

Selection Procedure

The Core Members are selected through a written application and interview process. The panel of interviewers shall contain the RAS, Head and the Head & Cores from the previous year. This panel recommends names for selection, and their selections are confirmed after taking approval from the Dean (Academic Research).

The Coordinators shall be selected through a written application and interview process, with the panel containing the Head and the Core Members of the Team.

Removal Procedure

Underperforming cores shall be removed in consultation with the Dean (Academic Research). Cores shall be also removed if they are found guilty by any disciplinary committee, as the Research Connect team demands the highest professional integrity and ethics.

Coordinators shall be removed, if they underperform, but only after a thorough performance review by the cores and RAS on their performance in the team. They also shall be removed if they are found guilty by any disciplinary committee.

Removal of any member from the team must be documented in the form of a report and shall be made available, on demand, to the Dean(AR) and/or SLC. The RAS shall maintain the reports for core members, and the respective cores for the coordinators and super coordinators.

Research Affairs Council (RAC)

Due to the removal of the Councilor position from the Constitution in 2020, RAC is suspended. The RAS Executive Team and Research Legislators shall carry on the work of RAC in spirit.

Resignation Procedure

Resignation of the Research Affairs Secretary:

Any member of the Executive Council who wishes to resign his/her Position of Responsibility may do so by writing a resignation letter to the Speaker and the Chairman, Board of Students, detailing reasons behind the same along with the password to their official email-id. The Research Affairs Secretary shall have resigned upon official communication of the same to the Student Legislative Council by the Speaker.

Post-resignation Procedure:

In case a member of the Executive Council resigns with more than three months available for the scheduled General Elections, the Student Election Commission shall conduct an election for that particularPosition of Responsibility immediately, with the student so elected continuing to hold office till the end ofthe academic year. In other cases, the Dean (Students) shall give additional charge of the vacated Position of Responsibility to a member of the Executive Council.

Statement of Expenditure

The Executive Council and Student Government Organizations shall present a financial statement detailing the expenditure of the approved budget at least once a semester to the Student Legislative Council in addition to a report about their financial statement to the corresponding Standing Committee once in two months. Failure to do the same may lead to the initiation of contempt proceedings against the secretary/body and bring them/it to Student Legislative Council for further action.
